1. In addition to Radio Station XNCR in north Shensi, the Chinese Communists are establishing two radio stations in South China:
 - a. XCHF, frequencies 6096 and 4920, in northwest Kweichow Province near the border of Szechuan Province.
 - b. XCCM, frequency unknown, in the Shamshuiipo District of Kowloon, Kwangtung Province.
2. Personnel operating these stations are young men trained and sent from North China. They have passed extensive courses in telegraphy, code, and radio maintenance. The latter is emphasized so that operators may learn to make repairs without having to purchase materials on the market and risk arousing suspicion. Messages are generally very short, and Chinese telecode is used.
3. Transmission schedule for these two new stations is Hongkong time 6 a.m. to 8 a.m. and 12 noon to 1:30 p.m.

This document contains information affecting the national defense of the United States within the meaning of the Espionage Act, 50, U.S.C. 31 and 32 as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.
